

Extra Celestials Just Want Us To Live in Joy

By Krysta Gibson

"And when the session was over, my client found some little golden balls that had not been there when the session began," said Christine Upchurch, local Reconnective Healing practitioner.

"You mean they just materialized during the session? Did you keep any of them?" I asked. "No," she said, "but I took pictures of them. And I heard of a woman who has had this happen a lot. Her name is Nancy Burson."

Really? I thought to myself. Golden balls materializing? From where? And why? Christine is not the sort of person to imagine such things. I will have to look up this Nancy Burson person on the internet and see what this is all about.

Before I can do that, I get an e-mail from Nancy introducing herself to me. I check out her website and see that in addition to the little golden balls materializing, now there are crystals coming out of her hands and feet. She is having all of this evaluated by scientists. She sends me a copy of her book, "Lineage," which is full of stories about crop circles, ETs and ECs, and Sai Baba, and a realized Master in Ireland... time to check her out.

Krysta: Nancy, what is an Extra Celestial?

Nancy: The Extra Celestials, or ECs, are our ancestry of Light. They are a part of the hierarchy of God that constitutes Divine Will. These ancient immortals are our celestial

heritage, and in the past, they have sometimes been referred to as the Elohim. They gave birth to humans, as well as the Ascended Masters and as good parents, they are here now because the present scenario occurring on the Earth was not anticipated.

KG: What is their message?

NB: The ECs are here for nothing less than to change the course of human destiny.

They are here to share their Light with us, so we become homo-luminous. They are also here to recreate human health. The gifts they're bringing to us now are here for us to truly understand that they come in peace to share their knowledge of human health, and teach us more about conscious understanding and love. There is at least one EC assigned to each human at birth, and many of us who intuit our inner voice have been unknowingly tuning into them for years.

KG: What do you say to people who say that ECs and such are all in people's imaginations and are not real?

NB: There's a great deal of evidence that constitutes real proof the ECs are here to serve humanity. They say that the Earth holds the entire Universe back with greed and negativity, and this is what must end. There

are thousands of people worldwide who see, feel, and hear the ECs and acknowledge in gratitude the EC presence in their lives. There are so many of us who are already seeing little flashes of colored lights out of the corners of our eyes, or hearing a few seconds of a high pitched sound going through our ears for a few seconds at a time. That's them! When an energetic majority of us recognize that they are truly here to serve mankind, we'll have left our fears behind and accepted them with grace and love. At that point, they might even land.

Nancy Burson says she has manifested golden balls and crystals (left) from her hands and feet in conjunction with her relationship with Extra Celestials or ECs. She says they are here to be our closest companions and advisors and believes that in the next few months there will be full disclosure of the truth about UFOs in the United States.

KG: What are the practical benefits to working with the ECs?

NB: There are huge benefits. Of course, you'll understand you're never alone, but then, we never were! It's always a crowded room and when you begin to access their presence, not only will you be entertained by Light Beings who are hilarious, but you'll become aware that our lives are just a game and the way we play the game is carefully watched.

The Divine are the scriptwriters, we're the underwriters, and the script is only written one line ahead. It's the way we move through our lives that's key, and up to us to choose. We can live in fear, and with love in our hearts for all our fellow beings.

The ECs are always entertained by humans,

Sun Valley Wellness Festival

May 22 - 25, 2009 • Sun Valley, Idaho

- 26 speakers covering all aspects of mind, body and spirit wellness
- Workshops and private sessions
- Eleven movement classes from yoga to Chi Gong
- An Exhibit Hall and Hands on Hall with over 50 booths

Embracing Positive Change

All in beautiful Sun Valley over Memorial Day weekend. Special lodging discounts for festival participants.

Give yourself the gift of wellness this Spring and join us for this inspirational event.

Featuring Keynote Speakers

Dr. Michael Beckwith

Special Musical Performance

Toni Childs

Dr. Robert Thurman
