## CHIROPRACTIC HEALING & WELLNESS

### Gentle yet powerful.

Our practice now offers a unique, breakthrough approach to patient care called Koren Specific Technique (KST). There is no twisting, turning, “cracking” or “popping” of joints with KST; instead, you receive gentle, specific corrections to your spine and structural system.

KST is very gentle and yet very powerful. Experience the difference.

Find out why people suffering from sciatica, migraine, colitis, chronic pain, thoracic hump, poor posture, disc problems, depression, dyslexia, sleeping difficulties, autism, and many other conditions rave about KST.

**Discover why chiropractors call KST “The Best Adjustment of Their Life!”**

Karen Hansen, PhD, LMHC

In my work as a transpersonal therapist it is my goal to help you realize your abilities into reality so you can start living fully in mind, body and spirit.

The transpersonal approach, awakens your subconscious awareness of intuition, archetypes and the link to your ancestors. We can use tools such as meditation, hypnosis, astrology and inter-life experiences to assist you in your transformation and to help you move from where you are to where you want to be.

## MEDIUM AND ANIMAL INTUITIVE

Kim has always been able to “know” things that other people could not, although it wasn't until the death of her mother that Kim discovered the depth of her unique talent. Because of the deep grief that she felt for the loss of her mom, Kim has dedicated her life to providing a way to help others overcome the grief caused by the death of a loved one. She has proven time and again that death is only a doorway to another world and that life indeed does continue after what we call death. Kim is a gifted medium, grief counselor and animal communicator. She has discovered the unique ability to feel and sense what the animal is feeling and is able to translate it into words. Kim has appeared on “Northwest Afternoon,” “Martha Norwalk's Animal World,” and “Kevin McDonald Presents” and has received rave reviews about her work.
