

The Mitchell-Hedges Crystal Skull

Continued from page 9

incomprehensible to modern man because there is a human element interacting with this "stone of light," an unexplainable source of all knowledge? If so, what motives, intention or questions must an individual need in order to unlock and access the hidden secrets of the crystal skull of Lubaantun? Is this knowledge as ancient as the origins of the planet, and of the human race, timeless knowledge that links the beginning of mankind with its immediate future?

Perhaps not surprisingly, in this new millennium, higher states of consciousness are returning full circle to meet with the far distant past, to that place where ancient civilizations fully understood the scientific and alchemic properties of precious and semiprecious gemstones, high quality crystal in particular. For as we know, crystal was mankind's first solid state device,

programmable with a broad spectrum of thought patterns and other energy fields. And a head of high quality crystal most certainly serves as an ironic metaphor for the "brainbox" containing what may be the most incredible gift of all, the means by which to access more of the brain's power than ever before, far beyond the 10% scientists claim we humans currently use.

High quality crystal is also known as a psychotronic device that amplifies thought, which can promote healing, just as the Mayan healing stone was used: to cure fevers and other infections; to stop internal bleeding; to dematerialize growths and tumors; to treat soil, seeds, or plants to assist sprouting and growth; and to communicate telepathically. This and more can be accomplished through the use of "holy ice," as ancient cultures called crystal, a perfect example of the amazing scientific powers associated with alchemy, or as this

"The Mitchell-Hedges Crystal Skull is one of the most mysterious, enigmatic treasures of all time, and the mystery deepens even further as we enter the new millennium."

science is known today, quantum physics.

One spectacular psychotronic device is the Mitchell-Hedges Crystal Skull, made of high quality quartz crystal in which images, or even written messages have been known to appear, along with the fragrant scent of roses.

Representing higher states of intelligence and consciousness, brilliant white light streams forth from within the eyes of a crystal head known to heal physical and emotional issues, and to bring wealth into the lives of those who meditate on this exquisitely carved treasure.

And yet, the Mitchell-Hedges Crystal

Skull is one of the most mysterious, enigmatic treasures of all time, and the mystery deepens even further as we enter the new millennium. In one photograph of the crystal skull, deep within the crystalline structure of the stone that "answers questions," in the area of the mouth, is the unexplainable image of a "human face," the implications of which are truly astounding.

One thing is certain, Indiana Jones had nothing on Indiana Anna, guardian of the Crystal Skull of Light, known for its healing energy. Anna and I talked often about the time when all 12 of the major crystal skulls will come together, in a circle, to amplify our human desire and our thoughts for peace on earth.

How to access the healing energy of the Mitchell-Hedges Crystal Skull:

- Clarify your intention and purpose. Remember you get what you focus on.
- Whether you have a photograph of the crystal skull or not, visualize yourself looking into the eyes of the healing stone and focus on your heart's desire with a feeling of love and compassion in your heart. Ask questions and expect answers.

DeAnna Emerson is the author of *Mars/Earth Enigma*, *Silver Dawn's Last Stand*, and another soon to be released book. DeAnna is also a remote viewer and a healer, one of 50 healers chosen to do long distant healings for the California Medical Center. Photographs of the Crystal Skull are available. Contact DeAnna at (360) 336-0205 (pager); email address: mailto:apeace_enterprise@yahoo.com. P.O. Box 207, La Conner, WA 98257.
